	Overall Width (mm)										
	Drop (mm)		Blind 2 (Right Hand Blind)	☐ Chain ☐ Motor	☐ Wand ☐ RollerIQ ☐ Automate						
	Window Mount	☐ Inside ☐ Outside									

Measure with Confidence

1. Measure in millimetres for accuracy
2. Double check your width and drop
3. Take your time – you'll achieve a perfect fit

Information Key:

Fabric Type & Colour:

Blockout, Sunscreen or Light Filtering
See our website for fabric and colour

Overall width

The overall width must equal the sum of Blind 1 width and Blind 2 width. We work from left to right, so Blind 1 is always the left-hand blind and Blind 2 is always the right-hand blind as you look at the window.

Blind control:

Both with Chain or Both with Motor

Bottom rail colour:

White
Black
Anodised (Silver)

Chain colour:

White
Black
Metal
Stainless Steel

Spring assist:

A spring assist is included for blinds over 1800mm wide, making it easier to raise your blind with a chain for a smoother, more effortless operation.

Pelmet:

Neatly cover and hide the top and front of your roll tube. Available for outside-mounted, back-rolled blinds only.

Back Roll

Front Roll
