Measure with Confidence

1. Measure in millimetres for accuracy
2. Double check your width and drop
3. Take your time – you'll achieve a perfect fit

Information Key:

Fabric Type & Colour:
Blockout, Sunscreen or Light Filtering
See our website for fabric and colour

Blind control:
Chain or Motor

Bottom rail colour:
White
Black
Anodised (Silver)

Chain colour:
White
Black
Metal
Stainless Steel

Spring assist:
A spring assist is included for blinds over 1800mm wide, making it easier to raise your blind with a chain for a smoother, more effortless operation.

Pelmet:
Neatly cover and hide the top and front of your roll tube. Available for outside-mounted, back-rolled blinds only.

Roll direction:

Back Roll
Fabric rolls off the back of the tube, sitting closer to the glass or architrave—perfect for a clean, streamlined finish.

Front Roll
Fabric rolls off the front of the tube, creating a soft waterfall effect—ideal for clearing window handles, winders, or any obstructions.

Back Roll

Front Roll
